Task 1
IAMs
Disaggregation
Regionalization Data
Regionalization
Marginal market integration
LCA DB
Task 2
Marginal market integration
Regionalization Data
Resource Extraction data
Regionalization
MFA data
Disaggregation
Material Roadmaps
Scenario harmonization
SSPs
Prospective Scenario-anchored Consequential LCA DB
Task 4
Case study data
Model Application
p-CLCA Open Modeling Tool
Task 3
Model extension
Local dynamics Data mining
Constraints & context
ESM adaptation & calibration
